SUMMARY

Computer Science Co-op student at Brock University applying foundational software engineering, data structures and algorithms, and web development skills to practical projects. Built a Python banking system and interactive JavaScript websites; currently develops Java solutions involving trees and heaps. Brings collaborative hackathon experience, curiosity, and a methodical approach to debugging and feedback.

TECHNICAL SKILLS

- Programming: Python, Java (data structures coursework), C++; JavaScript
- Web development: HTML, CSS, JavaScript; interactive game website and personal portfolio
- Tools: Visual Studio Code; GitHub (reviewing, adapting, and troubleshooting existing code)
- Computer science: Data structures and algorithms, debugging, problem-solving; advanced data structures in progress

ACADEMIC & PERSONAL PROJECTS

Java Data Structures & Algorithms 2026 – Present
Brock University | Completed Data Structures; Advanced Data Structures in progress

- Implement and debug Java coursework involving tree structures and min/max heaps; apply algorithms and examine how data is organized and processed.

Collaborative Hackathon Project 2025
Brock University

- Collaborated with teammates on project ideas and code under a deadline; helped organize tasks and present a proposed solution to judges.

Base Defense Game Website & Portfolio | HTML, CSS, JavaScript Jan 2023 – Jun 2023
Personal / high school projects | Visual Studio Code

- Built an interactive base-defense game website and personal portfolio, combining page structure, styling, and JavaScript-driven features.

Banking System | Python Sep 2021 – Dec 2022
High school computer technology project

- Created a transaction-based banking program for balance inquiries, deposits, and withdrawals using conditional logic and program flow.

RGB Lights, Sound & Motor | C++ Sep 2020 – Dec 2021
High school computer technology project

- Programmed and adjusted interactions between RGB lights, sound, and a motor in a physical computing project.

PROFESSIONAL EXPERIENCE

Farm Business Assistant | Part-time, as needed Dec 2023 – Present
Independent family-operated farm business

- Support weekly Friday egg sales at a mosque, handle cash, card, and e-transfer payments, and respond constructively to customer feedback.
- Transport and unload eggs, raw dairy milk, and occasional meat products for grocery stores when requested; assist with livestock handling and follow established procedures.

VOLUNTEER EXPERIENCE

Medlife Charity Volunteer | Event Planning Jan 2023 – Jun 2023
Nora Frances Henderson Secondary School | Hamilton, ON

- Worked with volunteers to develop fundraising activities, prioritize essential work, and coordinate event responsibilities.

EDUCATION

Bachelor of Science, Computer Science Co-op
Brock University | St. Catharines, ON
Expected Graduation: Spring 2029
Ontario Secondary School Diploma (2023) | Nora Frances Henderson Secondary School, Hamilton, ON
Computer Technology Specialist High Skills Major (SHSM): selected based on satisfactory academic performance.
